MAIL STOP: MISSING PARTS

Sir:

The above-identified Continuation Application was filed on July 18, 2003. Because we did not receive the date stamped postcard back from the U.S. Patent and Trademark Office, on October 28, 2003, the undersigned filed a Request for Early Notification of Serial Number, together with a duplicate copy of the Continuation Application that was originally filed on July 18, 2003.

Subsequently, the undersigned received a Missing Parts Notice and official Filing Receipt mailed November 5, 2003, assigning this application S.N. 10/622,109. A Response to Missing Parts was filed December 15, 2003, which comprised payment of the Retention Fee to preserve the file for purposes of filing a continuation-in-part application claiming domestic priority to this application.

The undersigned later received a second Missing Parts Notice dated March 18, 2004, assigning a new Serial Number 10/694,388 and a new filing date of October 28, 2003 to this application. The resubmission of a copy of the Continuation Application was not intended to be a new application, but was resubmitted in support of the Request for Early Notification of Serial Number.

Applicants: Peter James POOL et al.
Appln. No.: 10/622,109

It is respectfully submitted that new Serial Number 10/694,388 was issued in error. It is requested that Serial No. 10/694,388 be canceled and that the original Serial Number 10/622,109 assigned to this application be maintained. Please advise the undersigned accordingly.

Respectfully submitted,

Date: 4/19/04
